Bichon Frise: Male

Bichon Frise: Female

Parents: _____

I make every effort to guarantee the puppy is in good health at the time of purchase, however, Purchaser has a period of **five** (5) days after purchase date or date acquired to have the puppy examined by a licensed veterinarian. If the Purchaser does not have the puppy examined within said five day period, then Purchaser accepts puppy “as is” at the time of purchase and this contract is **VOID**. Puppies are examined and a fecal float to check for parasites and bacteria is done prior to going home by a licensed veterinarian. A patient chart from the clinic is included in your puppy pack.

Conditions such as Giardia, Coccidiosis, ear mites, parasites, or any other type of bacterial infection does not render the puppy unhealthy and **does not** warrant a return. This Guarantee does not cover non-life threatening disorders such as hypoglycemia, uneven bites, undescended testicles, cherry eye, inguinal or umbilical hernias, or dislocated patellas.

This contract is for **one** (1) year against genetic disorders of the heart, liver, and kidneys. If within one year puppy is found to have a genetic defect, certified by a licensed veterinarian rendering it to be incapacitated and an unsuitable companion, the Purchaser agrees to surrender the puppy to the Breeder and the Breeder agrees to

replace the puppy with one of equal value. Replacement will be a puppy of the Breeder's choice from a litter within one year. **No cash refunds will be made to Purchaser.**

Purchaser must notify Breeder within **ten** (10) days of diagnosis of a medical condition or death of the puppy. Replacement requests must be accompanied by a necropsy report if the puppy is deceased, and an absolute, verifiable diagnosis of the inherited condition in either case, including but not limited to, a statement from a licensed veterinarian and copies of relevant lab reports and/or DNA tests.

All expenses such as vet bills, medications, surgeries, etc are at the **Purchaser's expense**. Breeder makes no guarantee as to the size, color, personality, or temperament of the puppy. Puppies are sold as pets only with limited registration unless otherwise agreed.

Purchaser agrees to exercise normal care in maintaining puppy's health with routine physical exams, vaccinations, heartworm detection and appropriate grooming on a regular basis. Purchaser agrees to take care of and love the puppy unconditionally.

Breeder will not assume any responsibility for acts of the puppy, mortality, landlord disapproval, allergy to puppy, or disagreement of family/household members.

AGREED this ____ day of _____, 2020.

Signature of Purchaser

Suzanne Parker, Breeder
