

We recommend feeding **Bil-Jac® Puppy Select Formula** on a scheduled and controlled basis. For weaning puppies (3 ½ - 4 ½ weeks) moisten Bil-Jac® Puppy Select Formula with warm water. After weaning and up to 6 months of age, feed puppies three times daily. After 6 months until your puppy reaches maturity, feed twice daily. Use the feeding chart as a starting point. The proper amount to feed will vary according to age, environment and activity of your puppy. Make feeding adjustments to maintain proper weight and condition.

Fresh water should be kept available at all times. For your pet’s health, see your veterinarian regularly. **Store this bag in a cool, dry place.**
